darex PREMIUM COLLECTION

Darexova Premium kolekcija sastoji se od 28 dekora oplemenjene iverice koji su ekskluzivno izabrani iz ponude našeg poslovnog partnera Cleaf.

Ovakva kombinacija završne obrade, struktura i odabranih boja dekora je jedinstvena i u Srbiji se može pronaći samo u ponudi Darex-a.

Stilski i tehnološki razvoj je rezultat uporednog istraživanja kretanja dizajna, arhitekture i mode, kako bismo stekli kodove izražavanja i prepisali ih na površinu, stvarajući na taj način novu azbuku, sastavljenu od tehničkih i funkcionalnih performansi, kao i od taktilnih i vizuelnih senzacija.

Uverite se u poseban kvalitet završne obrade, sa kakvim se još niste susreli.

The image is a composite of three wood grain textures separated by white diagonal lines. The top-left section shows a light-colored wood grain with subtle yellowish-green highlights. The top-right section shows a medium-toned wood grain with vertical streaks. The bottom-right section shows a dark, almost black wood grain with prominent vertical lines. The bottom-left section is a solid black area.
