

## Instructions for Authors

### Original papers

The authors are requested to submit only those papers whose contents have not been published or presented in any other way. The papers need to contain original scientific, expert or applied results of the authors themselves. The results included should in no way violate the rights of other authors or organizations. Although all papers will be reviewed, the authors themselves are responsible for the publishing rights, originality and quality of their papers.

Papers should be submitted in Microsoft Word format, maximum 6 pages of A4 paper size (210 mm x 297 mm). Left and right margin should be 19 mm, and top and bottom margin 20 mm. The paper should be set in two columns with 5 mm column separation. The font to be used is Times New Roman 10pt.

The paper should start with an abstract giving the research overview and results. The paper should be divided into several sections. The conclusion, list of references, authors' biographies and (possibly) acknowledgements should appear at the end of the paper. The references should be listed in the order of appearance in the text. Short authors' biographies should be organized as explained further on in these Instructions. Figures and tables should be placed as close as possible to the text where they are first referred to. Figures should be numbered in the order of appearance in the paper. Figures should be positioned within a single column or they can span two columns. Figure captions must be numbered according to the order of being mentioned in the text. If used, equations must be centered within one column. If they are numbered, the equation number should be right justified. The title of the figure is indicated **under** the figure (Figure 1. Title.), whereas the title of the table should be indicated **above** the table (Table 1. Title.).

### References

For the sake of uniformity of the papers published, the authors are kindly requested to follow the instructions below when indicating references and footnotes:

1. References should be listed at the end of the paper, before the authors' biographies.
2. Place the actual footnote at the bottom of the column in which it is cited.
3. Both references and footnotes should follow these rules:
  - Name (or initial) and Surname of the author, followed by the title, publisher or magazine, place and year and relevant pages (p. or pp.)
  - Italics and quotation and double quotation mark are to be used as indicated in the examples below.

## Author

In the end, there should be a short biography of the author structured as follows>

- Author's title, name and surname
- **Education:** type of degree, field, institution, city, country, year.
- **Work experience:** (previous positions) current job
- **Previous publications:** (max. 3) title, publisher, city, year.
- **List of memberships and awards.**

## Survey papers

The magazine will also publish a number of survey papers, with the accent on new trends in telecommunications. All other previous instructions regarding the form of the paper apply to survey papers as well.
