Importance: High

Poštovani Petre,

Dobio sam informaciju da je javna rasprava o nacrtu teksta završena 5. Oktobra.
Da li znate ishod konsultacija? Da li će biti primenjene neke promene koje su navedene niže?

U slučaju ograničenja upotrebe, upravo sam primetio problem.
Zapravo za sve zemlje EEA koristimo dvocifrene kodove zemalja prema ISO 3166-1 i:
https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Glossary:Country_codes

ES	LU	RO
CZ	FR	HU
SI	DK	HR

BG

EE

BE

Međutim, u nacrtu zakonskog teksta se pominje da treba koristiti „SRB“ (tj. trocifreni kod zemlje).
Na Sony proizvodima trenutno koristimo „RS“ za Srbiju, u skladu sa dvocifrenim kodom zemlje.
Označavanje „RSB“ zahtevalo bi značajne promene u revidiranju pakovanja (do Juna 2024?).

Da li još postoji mogućnost da se ova zabrinutost istakne i zatraži od radne grupe da se to promeni u „RS“?

Hvala unapred i srdačan pozdrav,

Miloš Vojinović

Poštovani Miloše,

U pitanju je nacrt novog pravilnika, javne konsultacije su u toku.

Od bitnijih stvari iz nacrtu Pravilnika bih izdvojio:

- Stupa na snagu 01.06.2024.
- Potvrde o usaglašenosti će važiti 5 god.
- Prestanak potrebe za izdavanjem potvrda o usaglašenosti zaključno sa 31.12.2026.

Napominjem da je ovo nacrt, a videćemo šta će biti usvojeno.

Best regards,
Petar Petrovic

Poštovani,

Preko naših izvora dobili smo niže navedene informacije da je RATEL 04/09/2023. godine raspisao javnu raspravu o Nacrtu pravilnika o radio opremi.

Novi pravilnik je zasnovan na EU RED direktivi i zameniće trenutni R&TTE pravilnik, kada bude zvanično objavljen.

Da li imate više informacije o ovoj temi? Imate li ideju kada će biti usvojen, odnosno kada će zameniti postojeći R&TTE Pravilnik?

U praksi, pretpostavljam da nema uticaja na Sony proizvode, jer već godinama prodajemo opremu usklađenu sa RED direktivom?

Hvala unapred i srdačan pozdrav,

Miloš Vojinović
